

Please do not do anything to demenish the Indiana Telephone Privacy Law. Since it's inception the quality of my home life has increased drastically. Now I can answer the phone and hear the voice of a friend or family member instead of irritateing sales pitch from a credit card company,time share ,some charity no one has ever heard of or everyones favorite the vinyl siding company that wants to sell its product to the brick home owner and makes sure to call back no less than once a month.Thanks for your time and Please keep in mind that I have phone service for my convience not for solcitors who should go out and get a real job.

Thanks Again   Ralph Estes
